### RESTAURANTS & WATER QUALITY IMPACTS

The City of Santee has adopted the Stormwater Management and Discharge Control Ordinance (SMC 13.42) to regulate the discharge of pollutants to the storm drain system. Pollutants typically associated with food establishments include grease, food waste, cleaners, trash and debris. As a business owner or operator, you are legally responsible for ensuring that stormwater pollutants are properly managed.

### BEST MANAGEMENT PRACTICES (BMPs)

Best Management Practices are practical and cost effective approaches to day to day business operations that reduce, control, or prevent water pollution. The following is a list of minimum Best Management Practices that are required at all food establishments in the City of Santee.
