The City of Santee (City) has hired Disability Access Consultants, LLC (DAC) to assist the City to update a survey of its facilities, buildings, parks and recreational areas. Beginning in June of 2023, DAC Accessibility Specialists will be taking measurements and photographs of the interior and exterior of City owned and maintained properties and facilities. The project will continue for several months.

All DAC staff members have completed background checks and clearances and wear blue DAC branded shirts with identification tags. DAC surveyors do not need an escort in most areas but may need staff assistance if an area is locked, equipped with an active alarm or is a secure area.

DAC staff members will not take pictures of residents, staff or program participants, or discuss information and findings while conducting the survey. Information will be available after the report is finalized from the City designated contact person.

Please contact our ADA Coordinator at (619) 258-4100 x131 or ADACoordinator@cityofsanteeca.gov if you have any questions.

Thank you for your assistance and cooperation with this project.

Sincerely,

Rida Freeman
Human Resources Director
