Subject: Bird scooters- Santee
Date: Monday, October 25, 2021 5:06:28 PM

Chris Jacobs,

Mr. Jacobs,

I have been a resident of Santee for the past 10 years. I love our trails. I ride a regular bike on these trails or walk. I have a boat in Long Beach CA and they allow electric scooters. They are very dangerous. They wiz by pedestrians, the people using them do not wear helmets, They litter the surrounding trail because people leave them everywhere and often just throw them down on the ground. They are not collected proactively by companies such as Bird.

I urge the Santee Council to vote against permitting these electric scooters to be used on our lovely trails which enhance our community so much.

Thank you,

Eleanor Aylesworth-Warsh
